Ekart goes live on the ONDC Network for e-commerce logistics

Ekart's integration on ONDC enables seamless logistics fulfillment for Sellers and Brands looking to start or scale their e-commerce operations in India

New Delhi – 3 June, 2025: Ekart, one of India's leading logistics and supply chain providers, is now live on the ONDC Network, marking a significant step forward in the expansion of e-commerce logistics infrastructure within the ONDC ecosystem. This integration brings Ekart's extensive pan-India capabilities to a growing base of network participants, offering sellers and brands of all sizes, from MSMEs to large enterprises, seamless access to high-quality logistics services through the ONDC Network.

The timing of this move is aligned with ONDC Network's strategic focus on rapidly scaling e-commerce logistics on the Network. The strength of Ekart's operations, ranging from its wide delivery footprint to technology-driven fulfillment, offers the reliability and scale required to support this next phase of growth.

For sellers and brands across sectors such as D2C, FMCG, Fashion & Lifestyle, BPC, among others, the availability of Ekart on the ONDC Network means greater access to high-performance logistics. With just one interface to the Network, sellers can now tap into Ekart's nationwide operations to fulfill orders with speed, accuracy, and service-level confidence across all serviceable pincodes.

Ekart's decision to join the ONDC Network underscores a shared belief in transforming the way commerce operates in India; one that is focussed on a more distributed, inclusive model. The operational enablement through this integration is expected to significantly enhance the service quality and breadth of offerings on the logistics side of the network.

Vibhor Jain, Acting CEO and COO at ONDC *said, "This integration marks a significant step in democratizing access to world-class logistics. Ekart's scale and operational depth bring vital logistics capacity to the ONDC Network, reinforcing our commitment to building an open, interoperable infrastructure that empowers sellers and merchants to grow without logistical constraints. It reflects ONDC's vision of a digital commerce ecosystem where efficiency and access are shared standards."*

Mani Bhushan, Chief Business Officer, Ekart, said, *"Ekart is proud to join hands with the ONDC Network in building a more inclusive and democratized e-commerce ecosystem for India. This integration represents a natural extension of our vision to enable seamless, scalable, and tech-driven logistics solutions for businesses of all sizes - from first-time digital sellers to large, established brands. With this integration, Ekart brings to the table nationwide reach, deep logistics expertise, and a strong commitment to service excellence. Together with ONDC Network, we look forward to empowering businesses, MSMEs with greater access, efficiency, and growth opportunities."*

About Ekart

Ekart is one of the largest Supply Chain companies in India. Starting out in 2009 with an aim to fulfill the supply chain requirements of customers across India, Ekart today provides 4PL services to many small and large-scale businesses across the country. It provides integrated supply chain solutions encompassing warehousing, distribution, dropship, as well as multi-modal heavy/non-unitized inventory movements to customers across industries. With state-of-the-art grade A warehouses across 20+ locations, 7000+ trucks running daily across the length and breadth of the country, Ekart delivers across all serviceable pin codes in India.

Ekart strives to empower every Indian's dream by delivering value through Innovation in Technology and Commerce.

About ONDC:

Incorporated on 30th December 2021, Open Network for Digital Commerce (ONDC), a Section 8 company, is an initiative of the Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry, Government of India, to create a facilitative model that revolutionizes digital commerce, giving greater thrust to penetration of retail e-commerce in India. ONDC is not an application, platform, intermediary, or software but a set of specifications designed to foster open, unbundled, and interoperable Open Networks.
